MISS STONE IS WELL. IN BEHALF OF SCHLEY

Message Received from Her While Still in Captivity.

Mr. Rayner Makes a Remarkable Peroration Before the Court.

WRITES A LETTER. TEARS MADE TO FLOW

She States That She and Mrs. Tsilka Are Well—Mr. Dickinson Believes That Negotiations Will Be Delayed a While Longer.

His Description of the Admiral Who Stood on the Brooklyn Fighting the Spanish Fleet Was Particularly Affecting.

Sofia, Nov. 7.—The messenger sent by Bakmeteff, the Russian diplomatic agent, to the brigands, has returned, bearing a letter from Miss Stone to a former pupil at Sofia. Bakmeteff having thus established communication has turned the letter and details over to Mr. Dickinson, the American consul general, saying the latter has the ransom, and upon him rests the responsibility. The messenger was absent nine days.

The letter is dated Nov. 1 and is written in Bulgaria by Miss Stone, but controlled by the brigands. It consists of a half page, saying Miss Stone and Mme. Tsilka are well and that the latter expects a baby in three weeks. It expresses the hope for a speedy release. Bakmeteff's messenger also brought a letter to Mr. Dickinson from Miss Stone.

The brigands decline to trust Dickinson's men and characterize his offer as paltry.

Consul General Dickinson is greatly chagrined because the fact that he had received a letter from Miss Ellen Stone leaked out. He says it is calculated to seriously affect, if not completely undo, the progress already achieved. On two previous occasions negotiations with the brigands were abruptly broken off by the former owing to premature disclosure of secrets which the bandits regarded as being a breach of understanding with them.

Dickinson says that it is indispensable, if Miss Stone is ever to be released, that the course of negotiations be kept strictly secret. Her release is hopeless unless the brigands place confidence in the negotiators.

Letter from Miss Stone.

Washington, Nov. 7.—The state department has received a cablegram from Consul General Dickinson at Constantinople saying that he had received a letter from Miss Stone, the missionary held by brigands for ransom, dated October 29.

TRACK TAKEN UP.

Clash Between Railroads in Arizona Was Caused by Switching Charges.

El Paso, Tex., Nov. 7.—The Southern Pacific railroad at Deming, N. M., refused to switch 90 cars of freight belonging to the Bisbee, El Paso and Southwestern railway from the Southern Pacific yards to the Bisbee track until \$5 per car, switching charges, had been paid. An armed body of Bisbee's employees took forcible possession of a switch engine and transferred the cars to the Bisbee track. The Southern Pacific ordered the track taken up so no more cars can be handled to the Bisbee road. The Southern Pacific also sent to El Paso for a body of armed officers. There has been no bloodshed, but a conflict is threatened.

Carter Notified.

Leavenworth, Kans., Nov. 7.—Oberlin M. Carter, ex-captain of engineers in regular army, now confined in the federal prison at Fort Leavenworth, has been notified of the granting of a civil trial in the United States circuit court in Chicago in connection with suit instituted there by the government to take his property. The purpose of Carter's lawyers is to try at this trial to introduce evidence that Carter asserts was excluded at the court martial and which he alleges would have established his innocence.

Decision Against Rathbone.

Hamilton, O., Nov. 7.—Judge Thompson, in case of Mrs. Kate C. Minor against Major Estes C. Rathbone, former director of Cuban posts, handed down a decision which cancels the mortgage given by Mrs. Minor, when she purchased from Rathbone an interest in Riley block in this city. This decision cleans up last of Rathbone's assets which ten years ago amounted to \$250,000.

Latest from Boer Attack.

London, Nov. 7.—Kitcheners cables supplementary details of the recent fight near Drakenlaagte, eastern Transvaal: He says the Boer loss was 44 killed, including General Oppersmah, and 100 wounded. The Boers, he says, got nothing beyond the two guns. The Boer attack was easily repulsed, he says, until the arrival of Louis Botha with 600 men.

Acknowledge His Shortage.

Port Huron, Mich., Nov. 7.—Charles D. Thompson, treasurer of the supreme finance keeper of the supreme tent of Knights of Maccabees has confessed his accounts are short \$57,000. He has written a letter to Supreme Commander Markey acknowledging shortage.

Washington, Nov. 7.—The climax of the Schley court of inquiry came Wednesday afternoon when Mr. Rayner, chief counsel for Admiral Schley, concluded a brilliant argument of over three hours, with a peroration so eloquent and impassioned that all within the sound of his voice was profoundly touched.

This remarkable trial, he said, sought to condemn the man who had brought to a successful termination as great a naval triumph as was ever won. In vivid colors he painted the picture of the Brooklyn with Commodore Schley on the bridge fighting the entire Spanish fleet until the Oregon appeared out of the smoke. The scene in the court room as he finished was thrilling. The attendance was large and at the morning session a lady had fainted from excitement.

As Mr. Rayner began his eulogy of Admiral Schley those in the audience, many of whom were ladies, leaned forward in their seats. The spell of his oratory was over them, and when he described the admiral's gallant deeds and the long persecution to which he had been subjected, many of them wept. The members of the court displayed evidences of emotion and Admiral Schley himself was plainly moved. He sat, leaning back, with his hands behind his head. His chin twitched, and as his counsel said he could afford to await the verdict of posterity, two big tears rolled down his cheeks.

For fully 30 seconds after Mr. Rayner closed there was not a sound. Then the tension broke in a loud burst of applause. Admiral Dewey, after about half a minute, arose to remind the spectators that such a demonstration was out of place. A moment afterward the court adjourned, the judge advocate pleading that he could not well go on just then.

Then another remarkable thing happened. As soon as the gavel fell the entire audience surged forward to shake the hands of Admiral Schley and Mr. Rayner. But the incoming spectators fell back a moment as the saw Admiral Dewey and his two associates move around the table as if by a common impulse and congratulate Admiral Schley and his counsel. Even Captain Lemly, the judge advocate, came forward to join in the congratulations. Then the public had its lining, and for fifteen minutes after the court adjourned, Admiral Schley and Mr. Rayner were kept busy shaking hands.

Mr. Rayner displayed good temper in answering the testimony of most of the officers, and most especially the ranking officers who seemed to contradict his client, giving them in each case the credit for honesty of purpose. But with a few he dealt unsparringly. Wood, Potts and Bristol he held up to ridicule.

Argument Concluded.

Washington, Nov. 7.—Argument in the Schley court of inquiry was concluded this afternoon with Judge Advocate Lemly's address to the court in behalf of the navy department.

The court declined to grant the request made by Attorney Theall, acting for Admiral Sampson, that the remarks of Captain Parker concerning the fact that the Spanish steamer Colon lay in the harbor at Santiago for some hours after the arrival there of Admiral Sampson, be stricken from the record.

Railroad Forces Clash.

El Paso, Tex., Nov. 7.—A dispatch from Alamogordo, N. M., says the railway attorneys engaged there in arguing the Southern Pacific-Bisbee injunction suit received a telegram announcing that an armed conflict had taken place between the opposing railway forces at Deming, N. M., resulting in the loss of several lives.

A dispatch subsequently received from Deming, however, states that the Bisbee forces overpowered four guards and seized a Southern Pacific switch engine with which ninety cars of building material were removed from the Southern Pacific yards. The material belonged to the Bisbee company, but was being held by the Southern Pacific for switching charges. No lives were lost.

Virginia a Democratic.

Richmond, Va., Nov. 6.—Although in the election Tuesday the democrats polled only about 75 per cent of their vote the result surpasses their most sanguine expectations.

The negroes took little interest in the contest, and the indications now are the democratic majority for the state ticket will be more than 25,000. The democratic majority on joint ballot in the legislature will be overwhelming.

On the legislative ticket, the democrats made gains in the southwest, where they fear they were weak.

Richmond, Nov. 6.—Latest returns do not alter materially former election figures. The most conservative estimates place Democratic majority in state ticket at about 25,000. Legislature overwhelmingly Democratic.

SETH LOW IS ELECTED

He Defeats Shepard for Mayor of Greater New York.

MAJORITY IS 30,000.

Governors Nash of Ohio and Crane of Massachusetts Were Re-Elected. Republicans Successful in Most Other States.

New York, Nov. 6.—Complete unofficial returns from every district of Greater New York give Seth Low, the fusion candidate for mayor, 294,992, and Edward M. Shepard, Democratic candidate, 265,128, making Low's plurality 29,864.

Edward Grout, the fusion candidate for controller, has plurality of 44,975.

Unofficial returns from every election district in New York county give Wm. Travers Jerome, fusionist, a lead of 15,880 in race for district attorneyship.

Revised recapitulation of vote on president of board of aldermen with every district reported, shows Charles V. Fornes, fusionist, has a plurality of 31,384.

Complete unofficial figures from Borough of Queens show Joseph Cassidy, Democrat, elected president of the borough.

Complete unofficial returns show the election of Louis Haffen, Democrat, as president of the borough of Bronx.

PRESIDENT SETH LOW.

Complete figures from the borough of Richmond give the presidency to George Cromwell, fusionist.

Complete and revised returns from King's county show the election of Guden, fusionist, as sheriff over Hesterborg, Democrat. The vote was: Guden, 108,050; Hesterborg, 94,244.

New York, Sept. 6.—Seth Low, former president of Columbia university, and four years ago the Citizens' Union candidate for the first mayor of Greater New York, has been elected the second mayor of Greater New York by the fusionists by a plurality ranging from 30,000 to 40,000, defeating Edward M. Shepard of Brooklyn, the Democratic nominee. The campaign was an exciting one, and the vote, though somewhat less than the presidential election a year ago, was the largest ever polled in a municipal contest in this country.

In addition to the canvass for mayor, the interest largely centered by the fusionists in William T. Jerome for district attorney and Mayor Robert A. Van Wyck by the Democrats, for justice of the supreme court, who were voted for only in the territory named in New York county.

Returns received indicate that Jerome had been elected by a comfortable plurality, and ex-Mayor Van Wyck had been defeated, the latter running behind his ticket from 15,000 to 20,000.

Returns also indicate the complete triumph here of the Greater New York fusion ticket, Charles Vincent Fornes, the nominee of the Citizens' Union and the Republicans for president of the board of aldermen, defeating George Van Hoesch, the Democratic nominee.

Albany elected its entire Republican city ticket including Gans for mayor by majorities ranging from 1100 to 1500.

Nash Re-Elected in Ohio.

Columbus, Nov. 6.—Returns indicated republican gains in Cincinnati, Cleveland, Toledo, Dayton, Zanesville, Canton, Springfield and other cities, the notable exception being Columbus, the home of both Governor Nash and Colonel B. G. Kilbourne, the democratic and candidate for governor.

The greatest republican gains are outside the largest cities. Some of the democratic counties showed the largest republican gains. A notable exception in the rural districts was found in Pike and Adams, which jointly elected a democratic member of the legislature for the first time in eight years. Governor Nash's majority may exceed 50,000.

DUEL AT LOCKHART.

Earl Stringfellow Killed and Zack and Hall Badly Wounded.

Lockhart, Tex., Nov. 6.—A tragedy occurred Monday night in a saloon on the east side of the square. Earl Stringfellow, one of the principals of the tragedy, lies dead at his father's home in this city and Zack and Frank Hall, brothers, are seriously wounded. It seems that Stringfellow and the Halls had some trouble during the day, and on meeting in the saloon without further provocation all three drew their pistols and began shooting at close range, about fifteen shots being fired, all three of the participants emptying their pistols. Stringfellow was shot through the body and one finger was shot off, and he died in about twenty minutes.

The Halls were shot in the bodies and arms. Earl Stringfellow was a son of Capt. M. R. Stringfellow, a prominent lawyer, and was under charge in the district court of killing John Monkhouse some years ago.

Anti-Trust Cases.

Austin, Nov. 6.—The anti-trust suits against the various brewers were called in the district court and set for Dec. 11, except as to the Galveston brewery, the suit against it being continued on account of service and will not come up until the January term.

The anti-trust suit of the state against Teagarden & Shumate et al., the Master Plumbers' association was also continued until the January term on account of not having time for service. Smallpox Spreading.

Austin, Tex., Nov. 6.—The State Health officer continues to receive reports that smallpox is prevalent and indications point to an increase. Not all of the counties report, but enough have been heard from to show that the disease is on the increase and in a mild form. On account of its mildness the county commissioners are not doing their duty in failing to take necessary precaution, and as a result it is spreading, and if it should become virulent the effect would be quite serious in some localities. Some inexperienced practitioners have diagnosed it as chickenpox and Cuban itch.

Convicted for Drake Murder.

Fort Smith, Ark., Nov. 6.—In the United States court here the jury in the case of Abel McGilberry, Isaac King and Norris Cooper, charged with killing John B. Originally Abel McGilberry, Isaac King, Norris Cooper, Joe Cooley, Edmund Cooley and John Jones were indicted for the murder. Of these the three last named have died since they were indicted. Drake had been acting as a posseman for a United States marshal. He was shot at night upon being awakened from a sleep. Gov. Dukes, ex-Gov. Green McCurtain and several other prominent Choctaws and several other witnesses for the defense. The case was tried in the court here and on a change of venue from South McAlester.

Cherokee Land for Settlement.

Ardmore, I. T., Nov. 6.—The Cherokee Nation, in Indian Territory, probably will be opened to white settlement within the next 18 months. Senator J. C. Carpenter of Chanute, Kas., attorney for the Indians, thinks a treaty between the government and the Cherokees, providing for the allotment of the lands in the nation will be consummated this winter. He believes the reason the last treaty was rejected was that matters were misrepresented to the Indians. The matter has been explained, and they are now anxious to take allotments.

SAMPSON PROTESTS.

Objects to Clauses in the Argument by Schley's Attorney.

WANTS ELIMINATED.

Special Protest Made in Reference to the Colon Being Allowed to Remain in Sight Without Being Molested by Him.

Washington, Nov. 6.—E. S. Theall, acting on behalf of Stayton and Campbell, retained by Admiral Sampson to look after the latter's interest before the court of inquiry, has sent a letter to the court protesting against inclusion in the record of certain statements made in the court of argument by Schley's counsel, which is deemed to reflect upon Admiral Sampson's conduct at Santiago.

The letter particularly refers to the statement of the counsel that Admiral Sampson permitted the Spanish cruiser Colon to lie in sight without attacking the harbor of Santiago from the time of his arrival, June 1, 1898, to about 10:35 a. m. of that day.

The letter asks that such statements be stricken from the record or that Sampson be permitted to appear in the case of counsel and defend himself.

The entire time of the Schley court of inquiry to-day was devoted to argument in Admiral Schley's behalf. Immediately after court convened, Captain Parker proceeded with his address and he was followed without loss of time by Isadore Rayner, Admiral Schley's chief counsel.

Mysterious Lynching.

Fayette, Mo., Nov. 6.—The dead body of Bill Jackson, a negro, was found swinging from the end of a rope tied to the wagon bridge about one mile from East, Howard county. The negro's hands and feet were tied with binder twine, and he was clad only in his shirt. A deep mystery surrounds the affair. From one end of the bridge to the other is a great quantity of blood, but there are no marks of violence on the negro's body. A negro man and his wife with whom the dead negro lived, state that three men took Jackson out of his home, and hanging in the neighborhood state that Jackson had been warned to leave the community.

Believed to Be Drowned.

Mason City, Ia., Nov. 6.—No hopes are entertained now that G. L. Montgomery and N. S. Baird will ever again be seen alive. They were both very popular traveling men of this city. Montgomery represented the Plano Manufacturing company as general western representative. Baird represented the Simmons Hardware company of St. Louis. Saturday they went hunting on Clear Lake. They were last seen about 4 o'clock. They placed their decoy ducks and were hunting. At 6 o'clock a squall came up on the lake, and it is thought that the boat was capsized.

Foul Play Suspected.

Brazil, Ind., Nov. 6.—A man was discovered dead in a mover's camp south of the city, and a man and woman, with the dead man, who claimed to be man and wife. When questioned the woman informed the officers that the dead man was James Pitts of Rochester, Ind., and that her husband was jealous of her and Pitts, and had frequently threatened to kill him. This statement caused the authorities to believe Pitts had been murdered, and an investigation is being made.

Police believe the money part of the proceeds of the express robbery.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Wilson-Jenkins Drug Co.'s store. Get Green's Special Almanac.

BULLER MAY EXPOSE.

He Considers Himself a Victim of a Conspiracy and Threatens Revenge.

London, Nov. 6.—Gen. Buller considers himself the victim of a South African conspiracy and threatens to unmask his assailants. BOER CHILDREN.

England Advertising for Teachers to Go to South Africa.

London, Nov. 6.—Following the recent outcry against the treatment of the children in the South African concentration camps comes an advertisement inserted by the board of education in papers, for female teachers to go to the camps in order to teach the children simple rudiments and singing.

Why should the children be taught singing? The pro-Boers will ask in view of the reports of sickness and death among them.

A correspondent of the London Times, however, says that the

BRYAN DAY AT THE FAIR.

Sergeant Baldwin made another successful balloon ascension in spite of the high winds and threatening weather. The balloon was carried a considerable distance from the grounds.

The ladies' riding contest, three entries, was won by Miss Leake of Navasota; Mrs. D. F. Dansby of Bryan second.

The gentlemen's driving contest, five entries, was won by Rivers Patout; Collie Camp second; both of Navasota.

The ladies driving contest, two entries, Mrs. Sam M. Winters, Mrs. D. F. Dansby, resulted in a tie.

The baby show resulted as follows: Baby of Mrs. H. H. Hickman of Hearne took first prize; baby of Mrs. R. O. Allen of Bryan took second prize. Twins of Mrs. Ira Gooch of Navasota took first prize for twins; babies of Mrs. W. W. Griffin of Bryan took second prize for twins. The roping contest proved an exceedingly attractive feature. Gilley of Caldwell won first money. Time 1:28; Brandes of Bryan second. Time 2:4.

The night program at the grounds was omitted on account of the rain. The Curtiss comedy company gave a performance at the opera house and the young men gave a ball.

AFTER AMERICAN COAL.

Orders for Anthracite Show Marked Increase for Europe.

New York, Nov. 7.—There has been a marked increase recently in foreign orders for American anthracite coal, particularly from Germany. The increased demand abroad is said to be due largely to labor troubles in Wales and France, resulting in a curtailment of supplies from those countries. At the same time, low ocean freights and comparatively light exports of grain from this country have enabled anthracite interests here to take advantage of the situation abroad.

Representative coal dealers of Berlin, Baron Hoecke, Gustav Schulze, and P. A. Hanekow, are now in this country. They have inspected the Pennsylvania anthracite coal fields and as a result of their visit several fairly large orders have been placed. Some of these orders have already been filled and others are about to be shipped. A representative of the Philadelphia and Reading Coal and Iron company said concerning these German orders that his company had received an order for some 4000 tons of hard coal, to be consigned to the anthracite works of Gustav Schulze at Berlin.

WILL HELP MRS. TOPPAN.

Friends Will Make up a Fund to Fight Charges Against Her.

Boston, Nov. 7.—According to Mrs. J. E. Snow, cousin of Jane Toppan, the alleged poisoner of Mrs. Mary E. Gibbs, of Cataumet, wealthy and influential persons, will combine to fight the charge of murder which has made the nurse a prisoner. These persons, whose families Mrs. Snow says Miss Toppan served as nurse, but whose names she refused to give, will see that the prisoner is represented by the ablest counsel that can be procured in Mars, and several of them, it is said, will testify in her behalf when the case comes to trial. Mrs. Snow said: "There is much that could be said which would make this whole affair different."

Miss Toppan continues to assert her innocence and says she is impatient to tell her story at the inquest.

Given Three Years.

Galveston, Nov. 7.—Judge Bryant has sentenced D. Egbert, Jr., who was found guilty at the present term of the court of opening a registered letter and taking from it \$69. On the charge of opening the letter Egbert was sentenced to one year in the penitentiary, and on the charge of taking the money he was sentenced to three years. The sentences are to run concurrently, so that in all the confinement will not be more than three years. Egbert was a former railway mail clerk and his run was between Houston and Columbia on what is known as the Columbia Tap railway.

GOES TO EAST TEXAS

Experimental Station Will Be Lo-
cated in That Part of State.

CONTEST WAS SHARP

A Committee of Three Was Appointed
to Select the Exact Location.

More Stations Will Be De-
manded by Legislature.

Fort Worth, Tex., Nov. 7.—East
Texas will get the agricultural experi-
ment station, and it will be in either
Smith or Henderson counties. The de-
cision was made Wednesday night af-
ter speeches were heard by the board
of directors of the station from persons
representing different sections of the
state.

The board of directors was called to
order Wednesday morning in the city
council chamber by Chairman Marion
Sansom of Alvarado of the board of
directors of the Agricultural and Me-
chanical college. Other members of
the board present were as follows:
Jefferson Johnson, Austin; P. H. To-
bin, Denison; Capt. F. A. Reichardt,
Houston; A. P. Smyth, Mart; William
Malone, Hunter; A. C. Olivert, Dou-
glasville, and J. A. Baker, secretary,
College Station.

A telegram was received from John
W. Kokernot of San Antonio, a mem-
ber of the board of directors, to the
effect that he had the misfortune to
break his ankle and could not be on
hand.

The committee proceeded to busi-
ness and discussed the various phrases
of the station, the soil and offers guar-
anteed for its location.

The speeches were not made until
Wednesday night, and came in this or-
der:

P. M. Carter and W. I. Singleton
spoke for Arlington. They were fol-
lowed by Mr. Rawlins, representing
Ward county. T. W. Munson of Gray-
son county spoke, contending that
there were all necessary kinds of land
in Grayson county for an experiment
station. The concluding speech was
delivered by Congressman DeGraffen-
reid for Gregg county, who made a
catchy talk for east Texas.

It was after a three hours' execu-
tive session the committee decided
that the station would be located in
either Henderson or Smith county.

A committee of three, consisting of
Messrs. Johnson, Oliver and Reichardt,
was appointed to visit the two coun-
ties and decide the matter. It was
understood, however, that the county
or point selected must agree to guar-
antee the expenses for the second year
in the absence of state appropriations.

It is the consensus of opinion with
the board that the next legislature will
provide for the establishment of more
experimental stations. They say that
the enthusiasm manifested at this
meeting shows beyond a question the
interest felt, and that it is an object
lesson to the legislature.

The following persons were present,
to represent the various sections of
the state:

Lindale, Smith county—Hon. Hamp-
ton Gary, S. A. Lindsay, Hon. W. H.

EARL LI IS DEAD.

The Great Chinese Statesman Passes
Away at His Peking Home.

Peking, Nov. 7.—Li Hung Chang is
dead. He died at 11 o'clock this morn-
ing.

At 9 o'clock Wednesday evening,
while Earl Li was still alive, the court-
yard of the yamen was filled with life-
size paper horses and chairs with
coolie bearers, which his friend sent,
in accordance with Chinese customs,
to be buried when he died in order to
carry his soul to heaven.

The Chinese officials are somewhat
uneasy concerning the effect his death
will have on the populace, and to
guard against a possible anti-foreign
demonstration, the Chinese generals

have placed their troops about the city
in such a way as to command the situ-
ation. Trouble, however, is extreme-
ly improbable.

Dr. Robert Colman, an American,
who was one of the physicians attend-
ing Earl Li, told the correspondent of
the Associated Press that when he was
called to act with Dr. Velde of the
German legation Nov. 1, he found the
patient very weak from a severe hem-
orrhage, due to ulceration of the stom-
ach.

"The hemorrhage was readily con-
trolled," said Dr. Colman, "but owing
to the underlying condition of chronic
gastritis, with persistent nausea, only
the mildest liquid food could be taken.
Wednesday he was cheerful, and with-
out pain, but later he became uncon-
scious and was no longer able to get
rid of the collection of mucus, which
he had been freely expectorating."

Earl Li's persistent refusals to re-
frain from attending to government busi-
ness aggravated his malady, while
the refusal of the family to permit
certain measures customary in western
medical practice for relieving the stom-
ach contributed to bring his end near.

TEN LIVES LOST.

Burned to Death in a Vaudeville Theater
in a Wisconsin Town.

Ironwood, Mich., Nov. 7.—Ten lives
were lost and four buildings destroyed
by fire which started in the Klondike
theatre at Hurley, Wis., early
Wednesday morning.

The Klondike was a vaudeville the-
ater and all of the dead and injured
were connected with the theatre as
performers. Most of them lived at
Hurley.

The fire started on the stage and
in a few minutes the entire structure
was a mass of flames. The third story
was used as sleeping quarters and the
fire spread so rapidly as to cut off the
escape of the occupants.

The theatre building was quickly
consumed and the fire spread to ad-
joining structures.

The Ironwood fire department was
called to the assistance of the Hurley
firemen, and by the hardest work the
town was saved from being wiped out.

The loss on the theatre and other
buildings burned will amount to \$17-
000.

The charred remains of six of the
victims have been recovered and
search is being made for the others.

The Klondike theatre burned once
before in July, 1887, when eleven
women lost their lives.

Arkansas Tax Decision.

Little Rock, Ark., Nov. 6.—Chancellor Thomas B. Martin has decided in favor of plaintiff in the famous case of commissioners of improvement district No. 60 vs. Emma C. Austin, filed with many others of like character June 26, 1901. It involves the payment of three years' taxes, penalties and costs, and has been appealed to the supreme court as a test case. The district was organized four years ago, and many of the property holders declined to pay the assessments. The decision of the chancellor sustains the validity of the tax.

Merchant Badly Injured.

Vicksburg, Miss., Nov. 6.—Frank A. Schmidt, a well-known levee street merchant and liquor dealer, met with a singular accident here which may prove fatal. He was standing on Levee street near a box car on a side track, when a train passed with a carload of cross-ties on it. Several ties caught on the box car and were knocked off the car, falling on Mr. Schmidt. His skull was fractured, and he is hurt otherwise. His condition is such as to give but little hope of his recovery.

Shot by Their Companion.

Hamilton, Mo., Nov. 6.—Charles Rhea shot Roy and Leslie Butts at Kidder, a small town in the western part of this county, over some trouble arising from a game of cards. Roy Butts was shot through the arm and Leslie in the hip, making a dangerous wound, which may result fatally. Rhea was arrested by Constable Thomas, who took him to Kingston and placed him in jail. All the parties are under age.

Mrs. Edwards Sentenced.

Galveston, Tex., Nov. 7.—Mrs. Caroline Edwards, alias Mrs. Augusta Miller, who pleaded guilty at the present term of the United States court to using the mails to defraud, was sentenced by Judge Bryant to six months in the county jail.

Increased Republican Majority.

Newark, N. J., Nov. 6.—Essex county has gone for Murphy republican, for governor, probably by 8,000. The scattering returns coming in show that Murphy is running ahead of the republican vote of three years ago.

Trenton, N. J., Nov. 6.—Revised returns from various counties of state give Franklin Murphy, Republican, for governor a plurality 14,763 over James M. Seymour, Democrat. Republicans on joint ballot have majority 41 in legislature.

Rhode Island Republican.

Providence, R. I., Nov. 6.—Without any conclusive returns from the cities and towns throughout the state it was generally conceded that Governor Gregory and the republicans state ticket are elected by a plurality of about 5,000.

Mayor of Salt Lake City.

Salt Lake City, Nov. 6.—Returns from 43 voting districts of Salt Lake indicate the election of Thompson, Republican, for mayor, over Leary, Democrat, by about 500 plurality.

FRANCE THE VICTOR.

Turkey Yields to Demands Backed
by French Warships.

SHE SEIZED ONE PORT

As Soon as the French Marines Were
Landed at Mitylene the Turkish
Government Notified France
She Would Settle.

Paris, Nov. 8.—France has scored a
complete triumph in Turkish dispute.
The foreign office has received advices
announcing the sultan has yielded to
the entire demands formulated by the
French government and only a ques-
tion of form regarding the execution
of the engagement remains to be set-
tled. This may be done within the
next 24 hours, or it is expected at the
latest in two or three days. Then Ad-
miral Caillaud will relinquish his oc-
cupation of the island of Mitylene.

An official note has been issued to
the effect that the porte had decided
to yield to all the demands of France
and that as soon as the sultan has is-
sued the irade ratifying the decision,
the French squadron will leave Mity-
lene.

May Cut Down Land Offices.

Washington, Nov. 8.—There are in-
dications that the land districts in Ok-
lahoma will be entirely readjusted
shortly. The disposal of public land in
the territory has been going on rapidly
in recent years until some of the
districts have practically no lands left.
The officials of the local land offices
operate under a law which provides a
minimum salary of \$500 a year, and
through a fee system the possibility of
a maximum salary of \$3000 a year. It
is believed two officers in Oklahoma
will be sufficient hereafter.

Another Cracker Combine.

New York, Nov. 8.—Another attempt
is being made to form an association
among the independent cracker bakers
of this country. Local dealers have
for Monday next in Cincinnati. Some
significance is attached to this move-
ment in certain quarters because of
rumors of possible "bread war" here,
similar to that going on in several
western cities. It is said here that the
Union Biscuit company, of St. Louis,
is interested in the proposed Cincinnati
meeting.

Communication Is Maintained.

Washington, Nov. 8.—All that can
be gathered here touching Miss
Stone's case is that reports from Lev-
ant are to the effect that some kind
of communication is being maintain-
ed, although very indirectly between Miss
Stone's captors and the people who
are seeking to secure her release. It
is believed up to this point the mis-
sionaries themselves have been the
only persons able to keep open the
line of communication.

A New Oil Company.

San Francisco, Nov. 8.—The Asso-
ciated Oil company, organized to acquire
petroleum properties in California and
capitalized for \$40,000,000, is making
rapid progress in its enterprise. The
work of appraising oil land improve-
ments was completed last week, the
aggregate being between \$21,000,000
and \$22,000,000. The only remaining
question is that of the relative valua-
tions of the various properties.

Not Considered Politic.

Port of Spain, Trinidad, Nov. 8.—
The action of President Castro in ac-
cepting the good offices of Chili to end
the trouble between Venezuela and Co-
lumbia, after having refused the proffered
good offices of the United States look-
ing to the same end, is not consid-
ered politic. It is on good authority
that the terms mentioned by Presi-
dent Castro will not be acceptable to
Columbia.

Swift Linotype Operator.

Dayton, O., Nov. 8.—A remarkable
record on Linotype machines was
made in office of The Daily News
here when Claude Couset set 3250 lines
of nonpareil line meter count making a
total of \$4,500 emms in eight hours, the
machine being speeded to seven lines
a minute. To secure this result it was
necessary touch the keys 169,000 times
or nearly six times second.

Liberals Capture a Town.

Washington, Nov. 8.—The state de-
partment received a dispatch dated
Oct. 28 from United States consul at
Panama reporting the Liberal forces
captured the town of Tamuco, South
Panama. They took 400 to 600 sol-
diers prisoners and captured five or six
cannons, many rifles, quantity ammu-
nition, one small ship and the Gatling.

Li Hung Chang's Successor.

Washington, Nov. 8.—Minister Con-
ger, at Peking, has informed the state
department that Yuan Shi Kai has
been appointed to succeed Li Hung
Chang as viceroy of Chi Li, and Wang
Wen Shao has been appointed deputy
viceroy of the same province. Yuan
is at present viceroy of Shan Tung
province.

Maude Adams Statue Melted.

New York, Nov. 8.—What was
known as the Maude Adams statue
has been melted up at the United
States assay office in Wall street to-
day. The statue was made of \$97,000
in gold taken out of the assay office
from Buffalo direct.

Grant Crumley Acquitted.

Cripple Creek, Colo., Nov. 8.—The
jury in the case of Grant Crumley,
tried for killing Sam Strong, the mil-
lionaire mine owner here recently, re-
turned a verdict of acquittal.

IMPORTANT TO FARMERS.

Casava Plant Experiments in Mississippi
Prove Profitable.

Jackson, Miss., Nov. 8.—C. Menalas,
a well known cotton buyer of this city,
who owns a valuable farm in Lincoln
county, and on which he has conducted
many valuable experiments during
past years, has recently turned his at-
tention to the casava plant, and now
has samples on exhibition at the state
treasurer's office here. Mr. Menalas
secured the seed from Florida, and
planted during the month of May,
which was a month or two too late.
But the result has been highly satisfac-
tory. The casava plant there is at
least as large, fine roots, which
look very much like the
sweet potatoes.

STILL FALLING OFF.

British Trade for October Show Greater
Decline Than for September.

London, Nov. 8.—British trade re-
turns for October show a further de-
cline in the volume of the nation's
commerce. There is a drop of 750,000
pounds in exports, as compared with
October, 1900, while ten months of the
year give a diminution of nearly 10-
000,000 pounds. The fall in the last
month was due mainly to the dimini-
shed value of the coal export. In metals,
machinery and newspapers there is a
considerable decrease, which is bal-
anced by a great increase in the value
of textiles imported. Imports show
a marked reduction of no less than
4,000,000. The general impression pro-
duced by the figures is that trade is
distinctly on the down grade.

NEW DRY DOCK.

Plans for the Fourth One at Brooklyn
Almost Completed.

New York, Nov. 8.—Plans are now
being completed in the Brooklyn na-
vy yard for the proposed drydock No.
4. As soon as this is finished they
will be forwarded to Washington for
approval. The dock is to have a pump-
ing plant situated in the bottom of
saloon and operated by electricity.
No such pump has yet been used before
in this country. The electrical power
station is to be situated some distance
from the dock. Pumping plants of this
character are commonly used with dry
docks in Europe. It is contended by
officials at the yard that the govern-
ment will be saved \$70,000 by its use.

Seeking Homes in Texas.

Denison, Tex., Nov. 8.—The flyer
the north on the Katy came in Thurs-
day in two sections, carrying one of
the heaviest loads of passengers that
has ever been carried on this run. The
train had a coach load of soldiers out
of St. Louis en route to San Antonio,
to be stationed at the post there. Be-
sides this addition to the regular
travel, there was a load of home-seek-
ers from the northern states for Texas.
There were about 100 heads of families
on the train en route to various points
in Texas, where they will investigate
the country and look for homes. The
home-seekers are mostly farmers who
have means to buy and small stock
farmers, and are looking for better
lands in Texas than they can get in
the states north.

No Convicts Captured.

Leavenworth, Kan., Nov. 8.—None of
the convicts who escaped Thursday
have been captured. Many posers are
out, but none have come up with any
of them at last accounts.

South Dakota Bank Robbed.

Yankton, S. D., Nov. 8.—The bank of
Scotland, S. D., was robbed last night
of \$5000. No arrests.

MISS STONE IS WELL. IN BEHALF OF SCHLEY

Message Received from Her While Still in Captivity.

WRITES A LETTER.

She States That She and Mrs. Tsilka Are Well—Mr. Dickinson Believes That Negotiations Will Be Delayed a While Longer.

Sofia, Nov. 7.—The messenger sent by Bakmeteff, the Russian diplomatic agent, to the brigands, has returned, bearing a letter from Miss Stone to a former pupil at Sofia. Bakmeteff having thus established communication has turned the letter and details over to Mr. Dickinson, the American consul general, saying the latter has the ransom, and upon him rests the responsibility. The messenger was absent nine days.

The letter is dated Nov. 1 and is written in Bulgaria by Miss Stone, but controlled by the brigands. It consists of a half page, saying Miss Stone and Mrs. Tsilka are well and that the latter expects a baby in three weeks. It expresses the hope for a speedy release. Bakmeteff's messenger also brought a letter to Mr. Dickinson from Miss Stone.

The brigands decline to trust Dickinson's men and characterize his offer as paltry.

Consul General Dickinson is greatly chagrined because the fact that he had received a letter from Miss Ellen Stone leaked out. He says it is calculated to seriously affect, if not completely undo, the progress already achieved. On two previous occasions negotiations with the brigands were abruptly broken off by the former owing to premature disclosure of secrets which the bandits regarded as being a breach of understanding with them.

Dickinson says that it is indispensable, if Miss Stone is ever to be released, that the course of negotiations be kept strictly secret. Her release is hopeless unless the brigands place confidence in the negotiators.

Letter from Miss Stone.

Washington, Nov. 7.—The state department has received a cablegram from Consul General Dickinson at Constantinople saying that he had received a letter from Miss Stone, the missionary held by brigands for ransom, dated October 29.

TRACK TAKEN UP.

Clash Between Railroads in Arizona Was Caused by Switching Charges.

El Paso, Tex., Nov. 7.—The Southern Pacific railroad at Deming, N. M., refused to switch 90 cars of freight belonging to the Bisbee, El Paso and Southwestern railway from the Southern Pacific yards to the Bisbee track until \$5 per car, switching charges, had been paid. An armed body of Bisbee's employees took forcible possession of a switch engine and transferred the cars to the Bisbee track. The Southern Pacific ordered the track taken up so no more cars can be handled to the Bisbee road. The Southern Pacific also sent to El Paso for a body of armed officers. There has been no bloodshed, but a conflict is threatened.

Leavenworth, Kans., Nov. 7.—Oberlin M. Carter, ex-captain of engineers in regular army, now confined in the federal prison at Fort Leavenworth, has been notified of the granting of a civil trial in the United States circuit court in Chicago in connection with suit instituted there by the government to take his property. The purpose of Carter's lawyers is to try at this trial to introduce evidence that Carter asserts was excluded at the court martial and which he alleges would have established his innocence.

Mr. Rayner Makes a Remarkable Peroration Before the Court.

TEARS MADE TO FLOW

His Description of the Admiral Who Stood on the Brooklyn Fighting the Spanish Fleet Was Particularly Affecting.

Washington, Nov. 7.—The climax of the Schley court of inquiry came Wednesday afternoon when Mr. Rayner, chief counsel for Admiral Schley, concluded a brilliant argument of over three hours, with a peroration so eloquent and impassioned that all within the sound of his voice was profoundly touched.

This remarkable trial, he said, sought to condemn the man who had brought to a successful termination as great a naval triumph as was ever won. In vivid colors he painted the picture of the Brooklyn with Commodore Schley on the bridge fighting the entire Spanish fleet until the Oregon appeared out of the smoke. The scene in the court room as he finished was thrilling. The attendance was large and at the morning session a lady had fainted from excitement.

As Mr. Rayner began his eulogy of Admiral Schley those in the audience, many of whom were ladies, leaned forward in their seats. The spell of his oratory was over them, and when he described the admiral's gallant deeds and the long persecution to which he had been subjected, many of them wept. The members of the court displayed evidences of emotion and Admiral Schley himself was plainly moved. He sat, leaning back, with his hands behind his head. His chin twitched, and as his counsel said he could afford to await the verdict of posterity, two big tears rolled down his cheeks.

For fully 30 seconds after Mr. Rayner closed there was not a sound. Then the tension broke in a loud burst of applause. Admiral Dewey, after about half a minute, arose to remind the spectators that such a demonstration was out of place. A moment afterward the court adjourned, the judge advocate pleading that he could not well go on just then.

Then another remarkable thing happened. As soon as the gavel fell the entire audience surged forward to shake the hands of Admiral Schley and Mr. Rayner. But the incoming spectators fell back a moment as they saw Admiral Dewey and his two associates move around the table as if by a common impulse and congratulate Admiral Schley and his counsel. Even Captain Lemly, the judge advocate, came forward to join in the congratulations. Then the public had its inning, and for fifteen minutes after the court adjourned, Admiral Schley and Mr. Rayner were kept busy shaking hands.

Mr. Rayner displayed good temper in advertising to the testimony of most of the officers, and most especially the ranking officers who seemed to contradict his client, giving them in each case the credit for honesty of purpose. But with a few he dealt unsparingly. Wood, Potts and Bristol he held up to ridicule.

Argument Concluded.

Washington, Nov. 7.—Argument in the Schley court of inquiry was concluded this afternoon with Judge Advocate Lemly's address to the court in behalf of the navy department.

The court declined to grant the request made by Attorney Theall, acting for Admiral Sampson, that the remarks of Captain Parker concerning the fact that the Spanish steamer Colon lay in the harbor at Santiago for some hours after the arrival there of Admiral Sampson, be stricken from the record.

Railroad Forces Clash.

El Paso, Tex., Nov. 7.—A dispatch from Alamogordo, N. M., says the railway attorneys engaged there in arguing the Southern Pacific-Bisbee injunction suit received a telegram announcing that an armed conflict had taken place between the opposing railway forces at Deming, N. M., resulting in the loss of several lives.

A dispatch subsequently received from Deming, however, states that the Bisbee forces overpowered four guards and seized a Southern Pacific switch engine with which ninety cars of building material were removed from the Southern Pacific yards. The material belonged to the Bisbee company, but was being held by the Southern Pacific for switching charges. No lives were lost.

Virginia Democratic.

Richmond, Va., Nov. 6.—Although in the election Tuesday the democrats polled only about 75 per cent of their vote the result surpasses their most sanguine expectations.

The negroes took little interest in the contest, and the indications now are the democratic majority for the state ticket will be more than 25,000.

The democratic majority on joint ballot in the legislature will be overwhelming.

On the legislative ticket, the democrats made gains in the southwest, where they fear they were weak.

Richmond, Nov. 6.—Latest returns do not alter materially former election figures. The most conservative estimates place Democratic majority in state ticket at about 25,000. Legislature overwhelmingly Democratic.

SETH LOW IS ELECTED

He Defeats Shepard for Mayor of Greater New York.

MAJORITY IS 30,000.

Governors Nash of Ohio and Crane of Massachusetts Were Re-Elected. Republicans Successful in Most Other States.

New York, Nov. 6.—Complete unofficial returns from every district of Greater New York give Seth Low, the fusion candidate for mayor, 294,992, and Edward M. Shepard, Democratic candidate, 265,128, making Low's plurality, 29,864.

Edward Grout, the fusion candidate for controller, has plurality of 44,975.

Unofficial returns from every election district in New York county give Wm. Travers Jerome, fusionist, a lead of 15,880 in race for district attorneyship.

Revised recapitulation of vote on president of board of aldermen with every district reported, shows Charles V. Fornes, fusionist, has a plurality of 31,884.

Complete unofficial figures from Borough of Queens show Joseph Cassidy, Democrat, elected president of the borough.

Complete unofficial returns show the election of Louis Haffen, Democrat, as president of the borough of Bronx.

PRESIDENT SETH LOW.

Complete figures from the borough of Richmond give the presidency to George Cromwell, fusionist.

Complete and revised returns from King's county show the election of Guden, fusionist, as sheriff over Hesterberg, Democrat. The vote was: Guden, 108,950; Hesterberg, 94,244.

New York, Sept. 6.—Seth Low, former president of Columbia university, and four years ago the Citizens' Union candidate for the first mayor of Greater New York, has been elected the second mayor of Greater New York by the fusionists by a plurality ranging from 30,000 to 40,000, defeating Edward M. Shepard of Brooklyn, the Democratic nominee. The campaign was an exciting one, and the vote, though somewhat less than the presidential election a year ago, was the largest ever polled in a municipal contest in this country.

In addition to the canvass for mayor, the interest largely centered by the fusionists in William T. Jerome for district attorney and Mayor Robert A. Van Wyck by the Democrats, for justice of the supreme court, who were voted for only in the territory named in New York county.

Returns received indicate that Jerome had been elected by comfortable plurality, and ex-Mayor Van Wyck had been defeated, the latter running behind his ticket from 15,000 to 20,000.

Returns also indicate the complete triumph here of the Greater New York fusion ticket, Charles Vincent Fornes, the nominee of the Citizens' Union and the Republicans for president of the board of aldermen, defeating George Van Hoesch, the Democratic nominee.

Albany elected its entire Republican city ticket including Gans for mayor by majorities ranging from 1100 to 1500.

Nash Re-Elected in Ohio.

Columbus, Nov. 6.—Returns indicated republican gains in Cincinnati, Cleveland, Toledo, Dayton, Zanesville, Canton, Springfield and other cities, the notable exception being Columbus, the home of both Governor Nash and Colonel B. G. Kilbourne, the democratic and candidate for governor.

The greatest republican gains are outside the largest cities. Some of the democratic counties showed the largest republican gains. A notable exception in the rural districts was found in Pike and Adams, which jointly elected a democratic member of the legislature for the first time in eight years. Governor Nash's majority may exceed 50,000.

DUEL AT LOCKHART.

Earl Stringfellow Killed and Zack and Hall Badly Wounded.

Lockhart, Tex., Nov. 6.—A tragedy occurred Monday night in a saloon on the east side of the square. Earl Stringfellow, one of the principals of the tragedy, lies dead at his father's home in this city and Zack and Frank Hall, brothers, are seriously wounded. It seems that Stringfellow and the Halls had some trouble during the day, and on meeting in the saloon without further provocation all three drew their pistols and began shooting at close range, about fifteen shots being fired, all three of the participants emptying their pistols. Stringfellow was shot through the body and one finger was shot off, and he died in about twenty minutes.

The Halls were shot in the bodies and arms. Earl Stringfellow was a son of Capt. M. R. Stringfellow, a prominent lawyer, and was under charge in the district court of killing John Monte-house some years ago.

Anti-Trust Cases.

Austin, Nov. 6.—The anti-trust suits against the various brewers were called in the district court and set for Dec. 11, except as to the Galveston brewery, the suit against it being continued on account of service and will not come up until the January term.

The anti-trust suit of the state against Teagarden & Shumate et al., the Master Plumbers' association was also continued until the January term on account of not having time for service. The suits of the state against a number of fraternal beneficiary associations to forfeit their charters for failure to pay tax and other reasons were set for next Saturday, when they will come up on demurrer.

Smallpox Spreading.

Austin, Tex., Nov. 6.—The State Health officer continues to receive reports that smallpox is prevalent and indications point to an increase. Not all of the counties report, but enough have been heard from to show that the disease is on the increase and in a mild form. On account of its mildness the county commissioners are not doing their duty in failing to take necessary precaution, and as a result it is spreading, and if it should become virulent the effect would be quite serious in some localities. Some inexperienced practitioners have diagnosed it as chickenpox and Cuban itch.

Convictions for Drake Murder.

Fort Smith, Ark., Nov. 6.—In the United States court here the jury in the case of Abel McGilberry, Isaac King and Norris Cooper, charged with killing John B. Drake in Sans Bois, Choctaw Nation, the first of August, 1896, returned a verdict of guilty without capital punishment. All the parties are prominent Choctaws. This has been a noted case. Originally Abel McGilberry, Isaac King, Norris Cooper, Joe Cooley, Edmund Cooley and John Jones were indicted for the murder. Of these the three last named have died since they were indicted. Drake had been acting as a posseman for a United States marshal. He was shot at night upon being awakened from a sleep.

Gov. Dukes, ex-Gov. Green McCurtain and several other prominent Choctaw officials were witnesses for the defense. The case was tried in the court here and on a change of venue from South McAlester.

Cherokee Land for Settlement.

Ardmore, I. T., Nov. 6.—The Cherokee Nation, in Indian Territory, probably will be opened to white settlement within the next 18 months. Senator J. C. Carpenter of Chanute, Kas., attorney for the Indians, thinks a treaty between the government and the Cherokees, providing for the allotment of the lands in the nation will be consummated this winter. He believes the reason the last treaty was rejected was that matters were misrepresented to the Indians. The matter has been explained, and they are now anxious to take allotments.

Major Dawes Dead.

SAMPSON PROTESTS.

Objects to Clauses in the Argument by Schley's Attorney.

WANTS ELIMINATED.

Special Protest Made in Reference to the Colon Being Allowed to Remain in Sight Without Being Molested by Him.

Washington, Nov. 6.—E. S. Theall, acting on behalf of Stayton and Campbell, retained by Admiral Sampson to look after the latter's interest before the court of inquiry, has sent a letter to the court protesting against inclusion in the record of certain statements made in the court of argument by Schley's counsel, which is deemed to reflect upon Admiral Sampson's conduct at Santiago.

The letter particularly refers to the statement of the counsel that Admiral Sampson permitted the Spanish cruiser Colon to lie in sight without attacking the harbor of Santiago from the time of his arrival, June 1, 1898, to about 10:35 a. m. of that day.

The letter asks that such statements be stricken from the record or that Sampson be permitted to appear in the case of counsel and defend himself.

The entire time of the Schley court of inquiry to-day was devoted to argument in Admiral Schley's behalf. Immediately after court convened, Captain Parker proceeded with his address and he was followed without loss of time by Isadore Rayner, Admiral Schley's chief counsel.

Mysterious Lynching.

Fayette, Mo., Nov. 6.—The dead body of Bill Jackson, a negro, was found swinging from the end of a rope tied to the wagon bridge about one mile from Wall, Howard county. The negro's hands and feet were tied with bladed twine, and he was clad only in his shirt. A deep mystery surrounds the affair. From one end of the bridge to the other is a great quantity of blood, but there are no marks of violence on the negro's body. A negro man and his wife with whom the dead negro lived, state that three men took Jackson out of his bed. The negroes in the neighborhood state that Jackson had been warned to leave the community.

Believed to Be Drowned.

Mason City, Ia., Nov. 6.—No hopes are entertained now that G. L. Montgomery and N. S. Baird will ever again be seen alive. They were both very popular traveling men of this city. Montgomery represented the Plano Manufacturing company as general western representative. Baird represented the Simmons Hardware company of St. Louis. Saturday they went hunting on Clear lake. They were last seen about 4 o'clock. They placed their decoy ducks and were hunting. At 6 o'clock a squall came up on the lake, and it is thought that the boat was capsized.

Foul Play Suspected.

Brazil, Ind., Nov. 6.—A man was discovered dead in a mover's camp south of the city, and a man and woman, with the dead man, who claimed to be man and wife. When questioned the woman informed the officers that the dead man was James Pitts of Rochester, Ind., and that her husband was jealous of her and Pitts, and had frequently threatened to kill them. This statement caused the authorities to believe Pitts had been murdered, and an investigation is being made.

Heir to a Fortune.

Wichita, Kan., Nov. 6.—Ernest Carter, a window washer at the Cary hotel, has fallen heir to 7000 acres of cotton land in Alabama valued at \$35,000. Carter left for Birmingham immediately on receipt of the message. Carter is 22 years of age and as far as known has no relatives in this vicinity.

Police believe the money part of the proceeds of the express robbery.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. BRYAN DAY AT THE FAIR.

Was full of Interesting Features and Drew Large Crowds.

The last day of the Central Texas fair, Bryan day, brought out the usual large crowds, and was full of interest and enthusiasm.

The program opened with a fine horse show on the track in front of the grand stand, blue ribbon being pinned on the winners.

Sergeant Baldwin made another successful balloon ascension in spite of the high winds and threatening weather. The balloon was carried a considerable distance from the grounds.

The ladies' riding contest, three entries, was won by Miss Leake of Navasota; Mrs. D. F. Dansby of Bryan second.

The gentlemen's driving contest, five entries, was won by Rivers Patout; Collie Camp second; both of Navasota.

Gentlemen's riding contest, eight entries, won by Nathan Stapp, 12 years old, riding J. B. Routt's horse; Tom Sims second.

The ladies driving contest, two entries, Mrs. Sam M. Winters, Mrs. D. F. Dansby, resulted in a tie.

The baby show resulted as follows: Baby of Mrs. H. H. Hickman of Hearne took first prize; baby of Mrs. R. O. Allen of Bryan took second prize. Twins of Mrs. Ira Gooch of Navasota took first prize for twins; babies of Mrs. W. W. Griffin of Bryan took second prize for twins. Prize for triplets awarded to the Gunter triplets of Madison county.

The roping contest proved an exceedingly attractive feature. Gilley of Caldwell won first money. Time 1:28; Brandes of Bryan second. Time 2:4.

The night program at the grounds was omitted on account of the rain. The Curtiss comedy company gave a performance at the opera house and the young men gave a ball.

AFTER AMERICAN COAL.

Orders for Anthracite Show Marked Increase for Europe.

New York, Nov. 7.—There has been a marked increase recently in foreign orders for American anthracite coal, particularly from Germany. The increased demand abroad is said to be due largely to labor troubles in Wales and France, resulting in a curtailment of supplies from those countries. At the same time, low ocean freights and comparatively light exports of grain from this country have enabled anthracite interests here to take advantage of the situation abroad.

Representative coal dealers of Berlin, Baron Hoecke, Gustav Schulze, and P. A. Hanckow, are now in this country. They have inspected the Pennsylvania anthracite coal fields and as a result of their visit several fairly large orders have been placed. Some of these orders have already been filled and others are about to be shipped. A representative of the Philadelphia and Reading Coal and Iron company said concerning these German orders that his company had received an order for some 4000 tons of hard coal, to be consigned to the anthracite works of Gustav Schulze at Berlin.

WILL HELP MRS. TOPPAN.

Friends Will Make up a Fund to Fight Charges Against Her.

Boston, Nov. 7.—According to Mrs. J. E. Snow, cousin of Jane Toppan, the alleged poisoner of Mrs. Mary E. Gibbs, of Cataumet, wealthy and influential persons, will combine to fight the charge of murder which has made the nurse a prisoner. These persons, whose families Mrs. Snow says Miss Toppan served as nurse, but whose names she refused to give, will see that the prisoner is represented by the ablest counsel that can be procured in Mars, and several of them, it is said, will testify in her behalf when the case comes to trial. Mrs. Snow said: "There is much that could be said which would make this whole affair different."

Miss Toppan continues to assert her innocence and says she is impatient to tell her story at the inquest.

Given Three Years.

Galveston, Nov. 7.—Judge Bryant has sentenced D. Egbert, Jr., who was found guilty at the present term of the court of opening a registered letter and taking from it \$29. On the charge of opening the letter Egbert was sentenced to one year in the penitentiary, and on the charge of taking the money he was sentenced to three years. The sentences are to run concurrently, so that in all the confinement will not be more than three years. Egbert was a former railway mail clerk and his run was between Houston and Columbia on what is known as the Columbia Tap railway.

GOES TO EAST TEXAS

Experimental Station Will Be Lo-
cated in That Part of State.

CONTEST WAS SHARP

A Committee of Three Was Appointed
to Select the Exact Location.
More Stations Will Be De-
manded by Legislature.

Fort Worth, Tex., Nov. 7.—East
Texas will get the agricultural experi-
ment station, and it will be in either
Smith or Henderson counties. The de-
cision was made Wednesday night af-
ter speeches were heard by the board
of directors of the station from persons
representing different sections of the
state.

The board of directors was called to
order Wednesday morning in the city
council chamber by Chairman Marion
Sansom of Alvarado of the board of
directors of the Agricultural and Me-
chanical college. Other members of
the board present were as follows:
Jefferson Johnson, Austin; P. H. To-
bin, Denison; Capt. F. A. Reichardt,
Houston; A. P. Smyth, Mart; William
Malone, Hunter; A. C. Olivert, Doug-
lassville, and J. A. Baker, secretary,
College Station.

A telegram was received from John
W. Kokernot of San Antonio, a mem-
ber of the board of directors, to the
effect that he had the misfortune to
break his ankle and could not be on
hand.

The committee proceeded to busi-
ness and discussed the various phases
of the station, the soil and offers guar-
anteed for its location.

The speeches were not made until
Wednesday night, and came in this or-
der:

P. M. Carter and W. I. Singleton
spoke for Arlington. They were fol-
lowed by Mr. Rawlins, representing
Ward county. T. W. Munson of Gray-
son county spoke, contending that
there were all necessary kinds of land
in Grayson county for an experiment
station. The concluding speech was
delivered by Congressman DeGraffen-
reid for Gregg county, who made a
catchy talk for east Texas.

It was after a three hours' execu-
tive session the committee decided
that the station would be located in
either Henderson or Smith county.

A committee of three, consisting of
Messrs. Johnson, Oliver and Reichardt,
was appointed to visit the two coun-
ties and decide the matter. It was
understood, however, that the county
or point selected must agree to guar-
antee the expenses for the second year
in the absence of state appropriations.
It is the consensus of opinion with
the board that the next legislature will
provide for the establishment of more
experimental stations. They say that
the enthusiasm manifested at this
meeting shows beyond a question the
interest felt, and that it is an object
lesson to the legislature.

The following persons were present,
to represent the various sections of
the state:

EARL LI IS DEAD.

The Great Chinese Statesman Passes
Away at His Peking Home.

Peking, Nov. 7.—Li Hung Chang is
dead. He died at 11 o'clock this morn-
ing.

At 9 o'clock Wednesday evening,
while Earl Li was still alive, the court-
yard of the yamen was filled with life-
size paper horses and chairs with
coolie bearers, which his friend sent,
in accordance with Chinese customs,
to be buried when he died in order to
carry his soul to heaven.

The Chinese officials are somewhat
uneasy concerning the effect his death
will have on the populace, and to
guard against a possible anti-foreign
demonstration, the Chinese generals

LI HUNG CHANG.

have placed their troops about the city
in such a way as to command the sit-
uation. Trouble, however, is extreme-
ly impragable.

Dr. Robert Colman, an American,
who was one of the physicians attend-
ing Earl Li, told the correspondent of
the Associated Press that when he was
called to act with Dr. Velde of the
German legation Nov. 1, he found the
patient very weak from a severe hem-
orrhage, due to ulceration of the stom-
ach.

"The hemorrhage was readily con-
trolled," said Dr. Colman, "but owing
to the underlying condition of chronic
gastritis, with persistent nausea, only
the mildest liquid food could be taken.
Wednesday he was cheerful and with-
out pain, but later he became uncon-
scious and was no longer able to get
rid of the collection of mucus, which
he had been freely expectorating."

Earl Li's persistent refusals to re-
frain from attending to government busi-
ness aggravated his malady, while
the refusal of the family to permit
certain measures customary in western
medical practice for relieving the stom-
ach contributed to bring his end near.

TEN LIVES LOST.

Burned to Death in a Vaudeville Theater
in a Wisconsin Town.

Ironwood, Mich., Nov. 7.—Ten lives
were lost and four buildings destroyed
by fire which started in the Klondike
theatre at Hurley, Wis., early
Wednesday morning.

The Klondike was a vaudeville thea-
ter and all of the dead and injured
were connected with the theatre as
performers. Most of them lived at
Hurley.

The fire started on the stage and
in a few minutes the entire structure
was a mass of flames. The third story
was used as sleeping quarters and the
fire spread so rapidly as to cut off the
escape of the occupants.

The theatre building was quickly
consumed and the fire spread to ad-
joining structures.

The Ironwood fire department was
called to the assistance of the Hurley
firemen, and by the hardest work the
town was saved from being wiped out.

The loss on the theatre and other
buildings burned will amount to \$17-
000.

The charred remains of six of the
victims have been recovered and
search is being made for the others.

The Klondike theatre burned once
before in July, 1887, when eleven
women lost their lives.

Arkansas Tax Decision.

Little Rock, Ark., Nov. 6.—Chancellor Thomas B. Martin has decided in favor of plaintiff in the famous case of commissioners of improvement district No. 60 vs. Emma C. Austin, filed with many others of like character June 26, 1901. It involves the payment of three years' taxes, penalties and costs, and has been appealed to the supreme court as a test case. The district was organized four years ago and many of the property holders declined to pay the assessments. The decision of the chancellor sustains the validity of the tax.

Merchant Badly Injured.

Vicksburg, Miss., Nov. 6.—Frank A. Schmidt, a well-known levee street merchant and liquor dealer, met with a singular accident here which may prove fatal. He was standing on Levee street near a box car on a side track, when a train passed with a carload of cross-ties on it. Several ties caught on the box car and were knocked off the car, falling on Mr. Schmidt. His skull was fractured, and he is hurt otherwise. His condition is such as to give but little hope of his recovery.

Shot by Their Companion.

Hamilton, Mo., Nov. 6.—Charles Rhea shot Roy and Leslie Butts at Kidder, a small town in the western part of this county, over some trouble arising from a game of cards. Roy Butts was shot through the arm and Leslie in the hip, making a dangerous wound, which may result fatally. Rhea was arrested by Constable Thomas, who took him to Kingston and placed him in jail. All the parties are under age.

Mrs. Edwards Sentenced.

Galveston, Tex., Nov. 7.—Mrs. Caroline Edwards, alias M. S. Augusta Miller, who pleaded guilty at the present term of the United States court to using the mails to defraud, was sentenced by Judge Bryant to six months in the county jail.

Increased Republican Majority.

Newark, N. J., Nov. 6.—Essex county has gone for Murphy republican, for governor, probably by 8,000. The scattering returns coming in show that Murphy is running ahead of the republican vote of three years ago.

Trenton, N. J., Nov. 6.—Revised returns from various counties of state give Franklin Murphy, Republican, for governor a plurality 14,763 over James M. Seymour, Democrat. Republicans on joint ballot have majority 41 in legislature.

Rhode Island Republican.

Providence, R. I., Nov. 6.—Without any conclusive returns from the cities and towns throughout the state it was generally conceded that Governor Gregory and the republicans state ticket are elected by a plurality of about 5,000.

Mayor of Salt Lake City.

Salt Lake City, Nov. 6.—Returns from 43 voting districts of Salt Lake indicate the election of Thompson, Republican, for mayor, over Leary, Democrat, by about 500 plurality.

FRANCE THE VICTOR.

Turkey Yields to Demands Backed
by French Warships.

SHE SEIZED ONE PORT

As Soon as the French Marines Were
Landed at Mitylene the Turkish
Government Notified France
She Would Settle.

Paris, Nov. 8.—France has scored a complete triumph in Turkish dispute. The foreign office has received advices announcing the sultan has yielded to the entire demands formulated by the French government and only a question of form regarding the execution of the engagement remains to be settled. This may be done within the next 24 hours, or it is expected at the latest in two or three days. Then Admiral Caillaud will relinquish his occupation of the island of Mitylene.

An official note has been issued to the effect that the porte had decided to yield to all the demands of France and that as soon as the sultan has issued the irade ratifying the decision, the French squadron will leave Mitylene.

May Cut Down Land Offices.
Washington, Nov. 8.—There are indications that the land districts in Oklahoma will be entirely readjusted shortly. The disposal of public land in the territory has been going on rapidly in recent years until some of the districts have practically no lands left. The officials of the local land offices operate under a law which provides a minimum salary of \$500 a year, and through a fee system the possibility of a maximum salary of \$3000 a year. It is believed two officers in Oklahoma will be sufficient hereafter.

Another Cracker Combine.
New York, Nov. 8.—Another attempt is being made to form an association among the independent cracker bakers of this country. Local dealers have for Monday next in Cincinnati. Some significance is attached to this movement in certain quarters because of rumors of a possible "bread war," here, similar to that going on in several western cities. It is said here that the Union Biscuit company, of St. Louis, is interested in the proposed Cincinnati meeting.

Communication Is Maintained.
Washington, Nov. 8.—All that can be gathered here touching Miss Stone's case is that reports from Levant are to the effect that some kind of communication is being maintained, although very indirectly between Miss Stone's captors and the people who are seeking to secure her release. It is believed up to this point the missionaries themselves have been the only persons able to keep open the line of communication.

A New Oil Company.
San Francisco, Nov. 8.—The Associated Oil company, organized to acquire petroleum properties in California and capitalized for \$40,000,000, is making rapid progress in its enterprise. The work of appraising oil land improvements was completed last week, the aggregate being between \$21,000,000 and \$22,000,000. The only remaining question is that of the relative valuations of the various properties.

Not Considered Politic.
Port of Spain, Trinidad, Nov. 8.—The action of President Castro in accepting the good offices of Chili to end the trouble between Venezuela and Colombia, after having refused the proffered good offices of the United States looking to the same end, is not considered politic. It is on good authority that the terms mentioned by President Castro will not be acceptable to Colombia.

Swift Linotype Operator.
Dayton, O., Nov. 8.—A remarkable record on linotype machines was made in office of The Daily News here when Claude Couse set 3250 lines of nonpareil line meter count making a total of 84,500 emms in eight hours, the machine being speeded to set lines a minute. To secure this result it was necessary touch the keys 169,000 times or nearly six times second.

Liberals Capture a Town.
Washington, Nov. 8.—The state department received a dispatch dated Oct. 28 from United States consul at Panama reporting the Liberal forces captured the town of Tamuco, South Panama. They took 400 to 600 soldiers prisoners and captured five or six cannons, many rifles, quantity ammunition, one small ship and the Gatling.

Li Hung Chang's Successor.
Washington, Nov. 8.—Minister Conger, at Peking, has informed the state department that Yuan Shi Kai has been appointed to succeed Li Hung Chang as viceroy of Chi Li, and Wang Wen Shao has been appointed deputy viceroy of the same province. Yuan is at present viceroy of Shan Tung province.

Maude Adams Statue Melted.
New York, Nov. 8.—What was known as the Maude Adams statue has been melted up at the United States assay office in Wall street today. The statue was made of \$97,000 in gold taken out of the assay office from Buffalo direct.

Grant Crumley Acquitted.
Cripple Creek, Colo., Nov. 8.—The jury in the case of Grant Crumley, tried for killing Sam Strong, the millionaire mine owner here recently, returned a verdict of acquittal.

IMPORTANT TO FARMERS.

Cassava Plant Experiments in Mississippi
Prove Profitable.

Jackson, Miss., Nov. 8.—C. Menalas, a well known cotton buyer of this city, who owns a valuable farm in Lincoln county, and on which he has conducted many valuable experiments during past years, has recently turned his attention to the cassava plant, and now has samples on exhibition at the state treasurer's office here. Mr. Menalas secured the seed from Florida, and planted during the month of May, which was a month or two too late. But the result has been highly satisfactory. A single plant there is at least a large, fine roots, which look very much like the sweet potatoes. The growth Mr. Menalas is confident he has sufficient seed or joints to plant two acres next year, and he does not doubt it will produce something like 600 tons to the acre—perhaps considerably more. If it does, the problem of how to produce cheap meat in the south will be settled for all time to come, as 1 pound of the cassava is equal to 2 pounds of corn for fattening purposes.

STILL FALLING OFF.

British Trade for October Show Greater
Decline Than for September.

London, Nov. 8.—British trade returns for October show a further decline in the volume of the nation's commerce. There is a drop of 750,000 pounds in exports, as compared with October, 1900, while ten months of the year give a diminution of nearly 10,000,000 pounds. The fall in the last month was due mainly to the diminished value of the coal export. In metals, machinery and newspapers there is a considerable decrease, which is balanced by a great increase in the value of textiles imported. Imports show a marked reduction of no less than 4,000,000. The general impression produced by the figures is that trade is distinctly on the down grade.

NEW DRY DOCK.

Plans for the Fourth One at Brooklyn
Almost Completed.

New York, Nov. 8.—Plans are now being completed in the Brooklyn navy yard for the proposed drydock No. 4. As soon as this is finished they will be forwarded to Washington for approval. The dock is to have a pumping plant situation in the bottom of caisson and operated by electricity. No such pump has yet been used before in this country. The electrical power station is to be situated some distance from the dock. Pumping plants of this character are commonly used with dry docks in Europe. It is contended by officials at the yard that the government will be saved \$70,000 by its use.

Seeking Homes in Texas.

Denison, Tex., Nov. 8.—The flyer the north on the Katy came in Thursday in two sections, carrying one of the heaviest loads of passengers that has ever been carried on this run. The train had a coach load of soldiers out of St. Louis en route to San Antonio, to be stationed at the post there. Besides this addition to the regular travel, there was a load of home-seekers from the northern states for Texas. There were about 100 heads of families on the train en route to various points in Texas, where they will investigate the country and look for homes. The home-seekers are mostly farmers who have means to buy and small stock farmers, and are looking for better lands in Texas than they can get in the states north.

No Convicts Captured.

Leavenworth, Kan., Nov. 8.—None of the convicts who escaped Thursday have been captured. Many posers are out, but none have come up with any of them at last accounts.
